The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013, guidelines issued by the Securities and Exchange Board of India (SEBI) and other statutory requirements. Our Management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions and reasonably present our state of affairs, profits and cash flows for the year.

INDUSTRY REVIEW

Recent global trends indicate that there is a rising demand relative to supply and increasing cost of mining leading to an increase in commodity prices. Replenishing mineral reserves has become more difficult due to declining ore grades and additional challenges such as inadequate infrastructure and human capital, critical to support the growth of the sector. The Governments worldwide are adopting progressive policy measures to boost mining and mineral exploration in their countries. The Indian Government, too, has initiated several measures like the new mining legislation (still awaiting the approval of the Indian Parliament) and Sustainable Development Framework. The mining and mineral exploration industry keenly awaits the legislative and regulatory initiatives from the Government to promote private and foreign investment and introduction of internationally compatible mining policies.

RISKS AND CONCERNS:

The Company has applied for RP/PL for gold exploration which is highly speculative in nature and subject to several approvals and operational risks. These risks include exploration and mining risks, delays in approvals to undertake exploration activities, delays in grant of appropriate mineral concession licences, actual resources differing from estimates, operational delays and the availability of equipment, personnel and infrastructure.

The Company is also dependent on key personnel and subject to actions of third parties, including the staff, other contractors and suppliers.

The Company's operations are also subject to government laws and regulations, particularly environmental and land acquisition regulations.

The Company's future revenues from product sales will be affected by changes in the market price of gold other natural stones which is affected by numerous factors which are beyond its control. These include international supply and demand, the level of consumer product demand, international economic trends, currency exchange rate fluctuations, the level of interest rates, rate of inflation, global or regional political events and international events as well as a range of other market forces.

In the absence of cash flow from operations, the Company may have to rely on capital markets / private equity investment to fund its operations. The Company's ability to raise further funds will depend on the success of existing operations.

All the above factors notwithstanding, your Company and its Directors believe that they have adequate experience and access to expertise and capital sources that will enable the Company to successfully develop, launch and execute its projects successfully.

OUT LOOK AND OPPORTUNITIES :

India has the right geological potential for discovery and development of new gold mines. With the untapped mineral potential in India, the contribution of the mining sector in the GDP should aspire to around 7-8% over 20 years. The mining sector needs to play a major role if India has to realize the potential growth of 9% per annum in the coming years.

To unlock the potential of the mineral sector, the Indian Government would need to rework the legislative framework for transparent, safe, scientific & sustainable mining and effective regulation. Concerted action is required to promote scientific exploration for expanding the mineral reserves in India to its full potential. India needs to ensure globally best, fair, transparent and efficient process for the mineral concession system that reduces permit delays to create a more favourable policy environment.

Despite all these shortcomings, the gold exploration and mining sector holds substantial potential to contribute to the growth of the economy and create value for all stakeholders, including the Central Government, State Government (s) and the community at large .

To sum up Midwest Gold Limited will implement the RP/PL of the gold mines if the government of India sanction the RP/PL in its favor with state of the art technology; a large pool of well trained geologists, geophysicists and mining engineers to generate a mineral-based economic development of enormous scale and value.

Apart from the above the Company is doing trading of imported marble and Granite blocks produced out of local quarries to generate revenues to meet its day to day funds requirements. The Company is trying to capture the domestic as well as international granite and marble markets to enhance its opportunities to achieve its objects.

RISK MANAGEMENT :

The Company has the mechanism to combat the risks of exposure to Business, Assets and Financial Risks in the form of competition, accidents, natural calamities, obsolescence, and fluctuations in foreign currency etc. The management of your company is on constant vigil to combat any eventuality that may pose threat to the company's business.

INTERNAL CONROL SYSTEMS AND THEIR ADEQUACY:

The philosophy we have with regard to internal control systems and their adequacy has been formulation of effective systems and their strict implementation to ensure that assets and interests of the Company are safeguarded; checks and balances are in place to determine the accuracy and reliability of accounting data. The Company has a well defined organization structure with clear functional authority, limits for approval of all transactions. The Company has a strong reporting system, which evaluates and forewarns the management on issues related to compliance. Company updates its internal control system from time to time, enabling it to monitor employee adherence to internal procedures and external regulatory guidelines.

FINANCIAL PERFORMANCE & OUTLOOK:

Your Company achieved a Turnover of Rs.411.04 Lacs when compared to Rs 15.39 lacs during the previous year. The operations of the Company resulted in loss of Rs.115.85 lacs when compared to profit of Rs. 8.72 Lacs during the previous year after adjustment of deferred tax Liabilities/Asset.

The management has done well to ensure sustain operations. However, due to high cost and expenditure, the operations resulted into losses. Efforts are being made to reduce the costs involved. The Management is also looking to get profits in the ensuing financial year.

PERSONNEL:

Human wealth is the ultimate wealth for any industry. The Company recognizes this fact and understands that employees are one of the most important sources for sustained growth of any business. Quality personnel delivering their optimum potential for the organization is the key differentiator. The Company maintained good relations with its employees and there was no unrest in the Company at any point of time during the year.

CAUTIONARY STATEMENT :

Certain statements made in the management discussion and analysis report relating to the Company's objectives, projections, outlook, expectations, estimates and others may constitute 'forward looking statements' within the meaning of applicable laws and regulations. Actual results may differ from such expectations whether expressed or implied. Several factors could make significant difference to the Company's operations. These include climatic and economic conditions affecting demand and supply, government regulations and taxation, natural calamities over which the Company does not have any direct control.

Annexure – “B” to the Independent Auditors’ Report

Report on the Internal Financial Controls under (i) Of Sub-section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Midwest Gold Limited (“the Company”) as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountant of India. (‘ICAI’).

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- 1. pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company*
- 2. provide reasonable assurance that truncations are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company, and*
- 3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.*

Inherent Limitations of Internal Financial Controls over Financial Reporting.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the polices or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting Issued by the Institute of Chartered Accountants of India.
